To Whom It May Concern:

I have known Carlos Gómez Hernández for the past year and a half while he worked as Data Analyst at Colliers International. I have been consistently impressed by both Carlos attitude towards his work and his performance on the job.

In numerous occasions, Carlos helped the Industrial team to produce professional Regional Market Reports which assisted myself and my colleagues in securing key transactions on a number of occasions. He has outstanding interpersonal and communication skills, and works intelligently and efficiently under pressure.

During the time he worked for the Industrial team, he assisted brokers gathering insightful information from our multiple databases, coached numerous intermediate team members in the use of our internal systems, and was instrumental in solving various software problems in our data system .

I recommend him for employment without reservation. Please let me know if you need any further information.
